About Max

- I am a passionate geek. The things that I like, I obsess over — *Lord of the Rings*, *The Neverhood*, *Myst*, etc. I've spent the last six years producing a remake of one of the *Myst* games in my spare time. I love learning new systems, I believe that things have a way of working out, and I always try to look on the bright side of life. My dream right now is to 1st AC on a 70mm shoot, or even IMAX. Hot dogs are my favorite food, particularly when wrapped in bacon.
